* The 60 & 70 series funds are "fiduciary" funds. Presentation of these funds taken out of the adoption format to agree with GASB 34 requirements. This change also brings the school district adoption format more into conformity with statute 65.90 requirements used for other Wisconsin governments which specify that information be presented for governmental and proprietary funds, but does not require it for fiduciary funds.

EXPLANATION OF THE BUDGET

The State of Wisconsin uses a financial accounting system called WUFAR (Wisconsin Uniform Financial Accounting Requirements). WUFAR is basically divided into three areas: (1) instruction – activities dealing directly with the interactions between students and teachers; (2) support services – services which provide administrative, technical (such as guidance and library) and logistical support to facilitate and enhance instruction, and (3) non-program transactions.

COMMON FUNDS

Common funds, as the name implies, are those WUFAR dimensions which are in the common use by school districts in Wisconsin. The Common Funds serve as the basis for State and Federal Reports.

10 General Fund

The General Fund is used to account for district financial activities for current operations, except those which are required to be accounted for in separate funds.

20 Special Project Fund

This fund is used to account for activities which are funded, in whole or in part, by federal or state programs which are designed for specific purposes and which require accounting in a segregated fund (except Title I and Title VI).

30 Debt Service Fund

This fund is required by Section 67.11, Wisconsin Statutes. Irrepealable debt tax levy and related revenues are accounted for in this fund along with expenditures for long-term debt retirement. A separate checking and/or investment account must be maintained by the district for this fund.

40 Capital Projects Fund

This fund is used to account for financial resources involved in the acquisition of capital objects, construction of capital facilities, or maintenance projects. Capital projects financed through long-term borrowing or a sinking fund (sec. 120.10(10)) must be accounted for in this fund. If a capital project is financed through current year tax levy, the General Fund is used rather than the Capital Projects Fund.

50 Food Service Fund

Federal regulations require that the Food Service Fund be accounted for separately. All revenues and expenditures related to Food Service are recorded in this fund. The Food Service Fund may not transfer money to any other fund. Any fund balance must be retained for future use for Food Services.

60 Agency Fund (Moved to Fund 21 per Auditors)

The Agency Fund (formerly Student Activity Fund) is used to account for assets held by the District for student organizations. This fund is treated as balance sheet accounts. However, records of revenues and expenditures must be maintained in auxiliary accounts at locations administering the accounts. Programs or organization dimensions may be used to differentiate between various student organizations.

72 Private Benefit Trust Fund (Moved to Fund 21 per Auditors)

This fund is used to account for gifts and donations specified for benefit of private individuals and organizations not under the control of the school board. Scholarships are recorded in this fund. Cash and investment accounts in this fund are required as specified by donors.

80 Community Service Fund

S.120.12 AND 120.61, Wisconsin Statutes, allow a school board to permit use of the district's property for civic purposes. Should the Board elect to provide services which have the primary function of serving the community and which are not classified as instructional or supporting services for school educational programs such as adult education, community recreation, elderly food service programs, day care services, etc., this fund must be used.

90 Package and Cooperative Program Fund

Sub funds in Fund 90 involve multidistrict projects for which it is necessary to keep a separate record of expenditures so that participant districts' share will be determined accurately. Projects must be covered by a written agreement approved by the school board of each participating district. This will normally be a contract with CESA, CHCEB or other school districts.

Function Definitions

The function describes the purpose (activity) for which a service or material object is acquired. Functions are divided into sub functions that are more discrete descriptions of the overall function. The reported function categories should not be construed to dictate an organizational structure for the district's programs, departments, classes, etc. Rather, they are groupings often required for external reporting. The district should consider using the WUFAR local/optional dimensions if an accounting system incorporating units or other discrete reporting is required.
